The Green Party takes political reform very seriously. We believe politicians must stand up to their promises, and earn the trust of the people who elect them. The Green Party does not accept donations from any businesses, unions or organisations seeking to influence the political process.

**Therefore we are:**

- Banning **corporate donations** for all political parties.
- Reforming the **electoral system** – including looking at reducing the number of TDs
- Introducing a **directly-elected mayor** for Dublin
- Giving more **democratic power** to local communities
- Reforming the way people are **appointed to State boards**
